Put both evals into the tracker, but make a note on each entry that there is another eval for the site and I'll correct the equations. Thanks!

Did I understand you correctly when you said we should only get one set of scores for each site?? I thought at first they were going to collaborate but I guess that was a problem logistically. How shall I handle? Thanks!

Will:

Here are my Dynamac CPARS evaluations. A lot of these are under Althea Foster's name but, because we both have been working with Dynamac on these TDDs we were both going to send in our evaluations.... Not sure if Althea has already provided her evaluations to you yet (she is very busy with the Gold King Mine issue this week).

Let me know if you have any questions/concerns.

Thank you.

Subject: START Annual CPARS Evaluations - DUE COB Aug 14

Good afternoon everyone,

It's time again for the annual performance evaluations of the START contracts. Ginny will be sending out tailored lists of TDDs that require an evaluation. Please have them completed and returned to me (Cc'ing Ginny) as soon as possible, but no later than Friday, August 14th. If you cannot meet this time frame, please let me know as soon as possible so I can plan accordingly.

Also, I need to see at least two sentences in each of the narratives. "No problems" or "Good job" is not enough for CPARS. Thanks!
